DETAILED ACTION

Claim Objections

1. Claim 46 is objected to because of the following informalities: there is insufficient antecedent basis for “the wellbore” in line 6. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 46 is rejected under 35 U.S.C. 102(e) as being anticipated by Hardin (US 6,775,894).

Hardin discloses a method for loading a flexible sleeve in a carrier that involves the following steps:

- Positioning the sleeve 16 in an undeployed state within an interior of the carrier 14.
- Conveying the carrier downhole.
- Deploying the sleeve
- Removing the carrier from the wellbore (see Abstract).

Allowable Subject Matter

4. The indicated allowability of claim 46 is withdrawn in view of the newly discovered reference(s) to Hardin. Rejections based on the newly cited reference(s) given above.
5. Claims 1-24, 26-31, and 34-35 are allowed.
